REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to page buffer memory device. The independent claims 1, 9, 12 and 17 recite a no-volatile memory device comprising a plurality of page buffers and a control logic configured to control the page buffers during a read operation, wherein the control logic is configured to control the bias and pre-charge transistors of respective page buffers ***to fix second sense nodes at a predetermine bias voltage during a first sensing period when voltages on the first sense nodes are being sensed***. The RPIOR ART fails to suggest or disclose such a control circuit for a memory device having a plurality of page buffers as described in the independent claims 1, 9, 12 and 17, therefore, claims 1-18 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571)272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571)-272-1869. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
